A new comfort zone.

Meet the T10+ Smart Thermostat Kit with RedLINK® 3.0

The new T10+ Smart Thermostat Kit with RedLINK 3.0 offers humidification, dehumidification and ventilation control — giving you a customizable solution for each customer from a single device without running new wires. Homeowners benefit from the latest in smart thermostat technology, and you enjoy simple setup with benefits extending beyond installation.

Temperature, especially in bedrooms, is one of the biggest homeowner complaints when it comes to indoor comfort. When asked about the ability to prioritize certain rooms over others, consumers in a Resideo survey overwhelmingly agreed it was a must-have feature.

Set up. Solve.

Easy Install

- On-thermostat configuration, sensor pairing and WiFi connection process help streamline setup
- Quickly register devices using QR codes
- Create opportunities for additional sales through sensors and indoor air quality solution upgrades
- Upgrade to multi-stage or control indoor air quality equipment without running new wires

Direct Connection

- With the Resideo Pro app, your business will be linked to each of your customers' homes
- Through the Resideo Pro app, you can enhance current services or enable additional services that may lead to increased revenue streams
- With Resideo's in-app branding service, Pro-IQ™ Essentials, you can transform the Resideo app into a modern, digital calling card and retain your hard-earned customers

> **" I would love for comfort to follow me. It would be great to have that level of personalization. "**

T10+ Smart Thermostat Kit product features

- ENERGY STAR® certified. Only smart thermostats that earn the ENERGY STAR label have been independently certified, based on actual field data, to deliver energy savings

- Prioritizes room off time-based scheduling, motion detection or geofencing — giving customers ultimate flexibility for optimal control

- EIM included in kit makes upgrading to multi-stage or heat pump quick and easy

- Smart lockouts (such as ventilation lockout) can be activated on high- or low-temperature days or when the outdoor dew point is high

- Can be used with a floor/slab sensor to control the ambient air temperature, floor temperature or both

- Dry contact alerts, including water leak and full drain pan alert, with the option to shut off the system when drain pan is full

RedLINK 3.0 Room Sensor product features

- The T10+ Smart Thermostat communicates with RedLINK Room Sensors via RedLINK 3.0 wireless technology, helping ensure a strong, uninterrupted connection between devices

- Homeowners can set a schedule or let the sensors respond to their lifestyle

- RedLINK 3.0 sensors feature a 200-ft range from the thermostat to the sensor, which is greater than the advertised range of other sensors

- Powerful RedLINK wireless signal is designed to transmit reliably through most building materials

Comfort control from anywhere
With the Resideo app, homeowners can create and edit schedules, prioritize rooms and see smart alerts when the temperature goes above or below their set threshold.

T10+ Pro Smart Thermostat with RedLINK 3.0 Room Sensor

THERMOSTAT	MODEL NUMBER	DESCRIPTION	STAGES	DUEL FUEL	IAQ CONTROL	OUTDOOR TEMPERATURE LOCKOUTS	DRY CONTACT ALERTS	ENERGY STAR CERTIFIED
	YTHM1004R3000	T10+ Thermostat, EIM, RATS/DATS, Wireless Indoor Sensor	4H/2C Heat Pump + 3H/2C Conventional	Yes	Humidifier, dehumidifier and ventilator control	Internet, wired sensor, wireless sensor	Yes	Yes
