

JUMPER KING™ MULTI-JUMPER W/ SELECTOR

This patented all-in-one kit allows you to quickly bypass any low voltage thermostat regardless of style.

**ELIMINATE COMPRESSOR SHORT CYCLING & START THE SYSTEM SAFELY
WHEN YOU'RE READY TO START IT.**

FEATURES:

- ✔ Innovative circuit selector switches to activate leads/circuits of your choosing
- ✔ Resettable popper fuse - will never short out
- ✔ Includes 20 interchangeable tips - alligator clamps, magnetic tips, self-piercing insulation tips and spade adapters

TECHNICIAN INVENTED. TECHNICIAN PROVEN.

HVAC technician **Robert Kraft** wanted a safer way to start a unit, other than standard jumper wires, to minimize the risk of damaging a compressor. After many prototypes, he designed a versatile tool that can start the unit, bypass switches, and diagnose low voltage shorts with a 3 Amp pop-out fuse, and named it- rightly so, the Jumper King™.
